**DEFENDANTS' MOTION FOR SUMMARY JUDGMENT
OF NON-INFRINGEMENT OF U.S. PATENT NO. 4,811,075**

Defendant Fairchild Semiconductor International, Inc. and Fairchild Semiconductor Corporation (collectively "Fairchild") hereby respectfully move the Court for an Order pursuant to Fed. R. Civ. P. 56 declaring that none of the accused Fairchild devices infringe claims 1 or 5 of U.S. Patent No. 4,811,075 (the "'075 Patent"). There is no genuine issue as to any fact material to Power Integrations, Inc.'s ("Power Integrations") claims of infringement of the '075 Patent and Fairchild is entitled to judgment as a matter of law. The undisputed, material facts establish that each of the accused Fairchild devices are DMOS devices, that Power Integrations disclaimed coverage of those DMOS devices during prosecution of the '075 Patent and that the claims of the '075 Patent do not read on the accused DMOS devices.

This motion is based upon the opening brief and declaration in support of this motion, the supporting declarations and evidence attached thereto, all pleadings and papers on file in this action, and any other evidence the Court deems proper and just.
